

What should our government be doing to lead the way on tackling climate change?

We invite the Labour and Conservative parliamentary candidates to give us their views on Climate Change and tell us what they think they as politicians and we as local people should be doing to tackle the problem. In addition, you can tuck into a **free Hotpot supper**, and enjoy our other guest speakers and stalls:

- **Lancs Wildlife Trust talking about the Chorley Community Food Growing Project**
- **Andrew Holland, the Westhead farmer, who received the Countryfile/RSPB environmental award for conservation**
- **The Energy Saving Trust speaking on their role in the community and the upcoming feed-in tariffs**
- **Energy saving technology for the home and the grant funding available (Dalliam Ltd, Aughton)**

All are welcome. Join us on Friday 5th of March, at 7.15pm in Mawdesley Village Hall.
